

LITTER IS "UNSIGHTLY"

Litter is ugly - it is dangerous. It is costly. The "ugly" parts are easily understood, and needs no clarification. Just look around.

The "dangerous" part includes, among other things, health hazards. For example, litter piles attract mosquitoes, rats and other pests, which spread disease and dirt from their unsightly feeding places. When litter is tossed from automobiles, there is the danger of a broken windshield or the car following or the driver's vision may be obstructed; and additionally, any other types of accidents have been attributed to littering.

Litter is costly. First, it costs great sums to clean up. One example is the Alabama highway system, during last year's concentrated anti-litter effort, it cost some \$250 thousand to clean up the 10,000 miles of roads within the state. To keep these roads clean around costs an estimated \$1 million - and at taxpayer's money, it is this to the fact that clean state attracts new industry much more readily than a dirty one, and it is conceivable that litter could be the cause of a monetary loss, rough lack of new jobs and new income.

What can be done? The Alabama Highway Department has led the way a cleaner, more attractive Alabama. It has cleaned the highways, and is continuing to do so. During its initial Anti-litter campaign last summer, 60 employees collected 991,244 gallons of litter on our highways alone. Tons were issued by Alabama State Troopers as well as County and City enforcement officers across the state. This year, other concentrated effort will be made for the period June 15 - July 17. Again, employees will walk the 100 miles of our highway system and pick up at careless people have caused. And again, taxpayers will pay for it. All this would be unnecessary if litter were disposed of properly.

So, in addition to the anti-litter efforts, more importantly, the Highway Department is educating the citizens and school children to have received educational material in the form of films, posters, bumper stickers and informative, colorful brochures titled "Are You A Litterer?" This material has been distributed through cooperation on Chambers of Commerce, Municipalities County Commission, civic and business organizations and private individuals. Already, this time, requests for anti-

litter brochures has resulted in more than one million of them having been mailed out across the state. Everywhere, Alabama's citizens are becoming more and more concerned with this problem.

It has been suggested that the only way to stop littering is to enforce the anti-littering law. A \$100 fine can be imposed on persons found guilty of littering.

involved, with civic and other organizations cleaning up other than private property. Each person has to feel his responsibility in this important matter.

If everyone puts his own litter in the proper place, there would be no need for expensive, extensive clean-up campaigns, no need to print literature warning against the dangers. Carry a litter bag in

your car and boat. Then use the conveniently placed litter barrels for disposal of the trash and garbage.

Don't be a "Junkie." It could cost you a hundred dollars and perhaps even a jail sentence. Don't be a "Junkie." Take pride in your home, your community, your state. Litter is ugly - it is dangerous - it is costly.

By Elba Chapter

On Monday night, June 8th, the Elba Chapter of Business and Professional Women was host to the Opp and Andalusia Clubs at a picnic held at the Elba Country Club. Each year during the month of June these three Clubs get together for an annual picnic. The families of the members and other guests are invited to attend.

The Andalusia Club was responsible for the entertainment for the evening. They brought along a trio composed of two lovely and very talented young ladies, and a handsome young man equally talented of voice. Mrs. Annie Brazelton, and on the guitar, Everyone enjoyed the songs of these young people.

Elba Assembly Of God Begins Revival Sunday

Reverend James Kofahl, Pastor of First Assembly of God, Madison, Tennessee, will be the Evangelist for revival services to be held at the Elba Assembly of God June 21-26.

Rev. Kofahl has thirty years of experience as a pastor and evangelist, and is a very able speaker. His subject Sunday morning will be: "In the last days saith God" and Sunday evening, "Are we entering a third world war?"

Rev. J. C. Burks pastor of the church states that there will be special singing during the revival.

Rev. and Mrs. Morris Hyatt, the Calvary Quartet of Elba, and Rev. Billy Joe Glover and the Starlighters are some of which will be singing.

Services are to be held at seven each night, and everyone is invited to attend.

THE CHURCH FOR ALL... ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

BRAINSTORMS

With Fern Cox

I accepted an invitation to tour the new Kleinfert's building recently and what a tour! That Jack King took me everywhere including up a flight of stairs to the roof with all its airconditioners. The big sewing room is so big the walls are color coded to help workers find out which direction to go for any given need. To top off all that, they can show you exactly where they plan to expand each department as their employment expands past the 1,000 mark the present building will accommodate.

ZIGLAR SALES & SERVICE
Elba, Alabama

We didn't make it any easier to look at.
Just easier to drive.

You'd never know it to look at it, but that's a Volkswagen without a clutch pedal.

What it does have is something called an automatic stick shift, "Automatic" because you can drive it up to 55 mph without shifting at all. "Stick shift" because you shift it when you go over 55.

And that's just to help you move gas. In driving with a grand old Volkswagen (caution.)

As a matter of fact, this VW still gives you 25 miles to the gallon. It still takes only an occasional can of oil. And it still won't go near water or antifreeze.

If it were any other car, you'd probably pay dearly for all this luxury.

Instead, a Volkswagen with an automatic stick shift costs a mere \$1978*.

All of which reinforces what we've been saying for 20 years.

Looks aren't everything.

*Suggested retail price Gulf Coast P.O.E., local taxes and other dealer delivery charges, if any, additional.

Washington Report

by GEORGE ANDREWS
Member of Congress
Third District of Ala.

President Nixon's Cambodian strategy appears to have been a tactical success -- at least in the short run. If it saves lives and shortens the war, it certainly has merit.

I was greatly concerned when our troops were moved into Cambodia. My concern was not based simply on the fact that we had crossed a boundary line into another country, since the enemy we were pursuing was not the Cambodian army, but the North Vietnamese and Viet Cong forces which had been fighting in South Vietnam.

The so-called "neutrality" of Cambodia has been a myth from the very beginning, since these same North Vietnamese and Viet Cong troops have been operating in that country for some time.

My principal concern was that we might be expanding our no-win military policy to another front. President Nixon has decided that the enemy's sanctuaries in Cambodia should be destroyed, but, like Lyndon Johnson, he has never seen the wisdom of eliminating the enemy's political and supply bases in Hanoi and Haiphong.

Therefore, we continue to fight a war of grandeurism in Vietnam, a slow painful death -- a perfect study of how not to win a war. Even in the Cambodian operations, the President has assured anti-war critics at home and abroad that we will be out of Cambodia by July 1. It is as if we want to make the Communists mad, but not too mad.

General Curtis LeMay, former Chief of the Air Force, once said, "You can never kill off flies until you destroy the manure pile." In this war the manure pile are in North Vietnam, and we haven't touched them, and eventually getting to Communist field troops, who use them to kill South Vietnamese and American soldiers.

We may not be in a declared war and we may have ruled out a military victory, but 42,000 of our finest young men have died

in South Vietnam, and more than 350,000 have been wounded. Declared or not, this is war, and we ought to recognize it as a war and win it -- or get out entirely.

The President says that we will be out of Cambodia by July 1, and that the destruction of enemy sanctuaries in that country will aid our withdrawal from Vietnam. About 150,000

men are expected to come home during the next year. I think that most Americans are willing to give the President his chance to get out of this war. The action proposed by some members of the Senate to cut off funds from the war effort infringes to the powers of the President as commander-in-chief and is probably unconstitutional. At any rate, I shall not

be a party to any action that would withdraw support from our fine young men who are fighting in this war or in any way endanger their lives.

General Douglas MacArthur, who knew how to win, said it plainly enough: "There is no substitute for victory." If President Nixon cannot accept this very timely truth, he should bring our boys home.

We would like to express our deep appreciation to the many people who showed such great kindness and concern in the recent death of Mrs. Dixie Clark. We are most grateful to you all.

Mr. Fulton Clark, Mrs. Maggie Dean Boyd, Mrs. Joe Ann King, 6/18/lp.
